

# Turn an Endless Search Into a Quick Find With Relevant Search Results

Ecommerce Site Search Integrates With Your Online Store to Optimize Search Results and Elevate the Shopper Experience

## My Ecommerce Platform Already Has Site Search. Why Do I Need Searchspring?

- Searchspring helps you provide the ultimate shopper experience and transforms your site into a conversion machine.
- Getting the right products in front of shoppers should be easy – for them and for you.
- We create a simple, high-performing Site Search experience without the need for custom code or plugins.

“

### You Can Depend on Searchspring to Display Relevant Products to Shoppers When They Search Your Site

*“The search functionality offered by Searchspring was a huge win for Fabletics. The filters and semantic search capabilities mean that our customer can enter the attributes they want, or search using natural language to find the results they’re looking for.”*

**Jamieson Yee, SVP, Global Product & QA,  
TechStyle Fashion Group (Fabletics Tech Partner)**

**Autocomplete • Semantic Search • IntelliSuggest • Synonyms**

And More – All Designed to Help You Convert
